

A **SUTINDO** COMPANY

PT. SUTINDO RAYA MULIA

PT. SUTINDO RAYA MULIA

**To be the leading
stainless steel stockiest
& manufacturing company
in the whole Indonesia region
by 2019 through well knitted network,
continnuual innovation,
and operation excellence.**

VISION
PT. SUTINDO RAYA MULIA

PT. SUTINDO RAYA MULIA

**To provide reliable solution
of all stainless steel material
in the whole Indonesia region
through establishing world class process
and developing people competence,
as well as obtaining sustainable profits
for stakeholders.**

MISION
PT. SUTINDO RAYA MULIA

COMPANY PROFILE

The Most Reliable Solution for
Stainless Steel, Carbon Steel and
Special Alloys Materials

Headquartered in Surabaya. Built with vision to be no.1 stainless steel player in Indonesia. To achieve the vision, Sutindo Raya Mulia (SRM) along with its affiliated, spread their wings by opening nationwide network, currently SRM had branch office in Jakarta, Semarang, Balikpapan, and Samarinda.

SRM is the pioneer of Good Corporate Governance Practices in its market, makes us the most reliable material construction in the country and the best partner to collaborate with.

**Establishment : Mar 10, 1997
Head Office : Tanjungsari 44i

PT. SUTINDO RAYA MULIA

PLATE/SHEET, COIL and STRIP

Standard : ASTM A240/A480

Standard specification for the flat product of stainless steel, i.e. plate/sheet, coil and strip form.

Using this standard will give the assurance that flat product you used is applicable in general requirement and even in heat treatment.

OUR PRODUCTS

FLAT PRODUCT ASTM STANDARD

AISI300/400 Series and 253MA

For wide range of your requirement, we supply from AISI 300 series and 400 series. Type from AISI 300 series (austenitic) : 304/304L, 310S, 316/316L ; from AISI 400 series (ferritic) : 409 and 430. For heat treatment, we also provide 253MA.

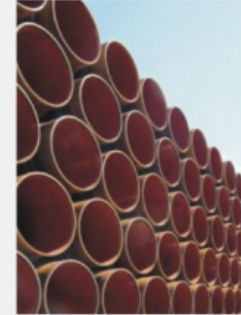

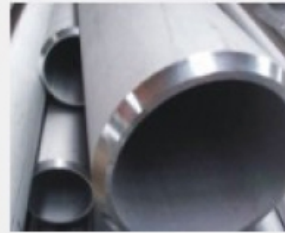

STANDARD

ASTM A312 : Standard Specification for Austenitic grade Stainless Steel Pipe

GRADE :

ASTM A312 Pipe has more than 45 types of Austenitic Grade. The most used grades are 304, 304L, 316, 316L, 317L, 304H, 321, 310S, etc

PT. SUTINDO RAYA MULIA

APPLICATION :

ASTM A312 covers from Austenitic grade for industrial piping purpose in petrochemical, chemical, refinery, pulp & paper, gas, energy, etc

PRODUCTION :

Pipe has to be made by automatic welding machine without any filler addition. This method of production makes it different compared with other standard, which "without filler addition" is not listed.

COMMERCIAL GRADE :

304 and 316 are two most used grades among 45 type of austenitic types. That's the reason, we at Sutindo Raya Mulia, put more stock for these grades.

STEEL GRATING

OUR PRODUCTS

DETAIL

STEEL GRATING

TYPE : XSP.525-30/101 (OFFSHORE)
SERRATED
(DIMENSION IN INCH)

- Carbon Structural Steel as per ASTM A 36

DESCRIPTION

- Steel Grating type XSP 4.525-30/101-5

TOLERANCE

- ASTM A6/A6M-96b

SIZE

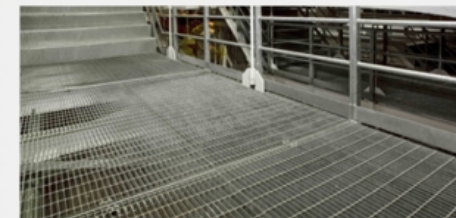

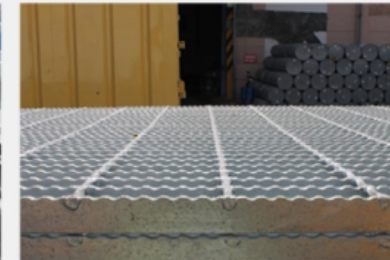

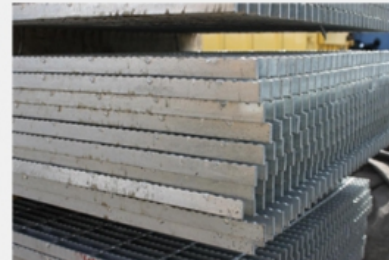

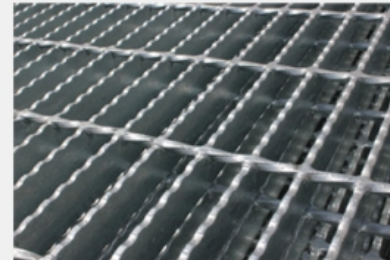

- 3 feet x 20 feet

BRAND

Ulichtgitter
